GitHub: github.com/SentenciaSQL | Santo Domingo, Dominican Republic

Professional Summary

Results-driven Full Stack Developer with over 13 years of experience designing and developing scalable web and mobile applications using Java, Spring Boot, and Angular. Experienced in building and maintaining high-performance platforms across e-commerce and learning management systems. Committed to writing clean, maintainable code and delivering reliable solutions through agile practices and continuous improvement.

Core Technical Skills

Backend Development:

Java SE, Java EE, Spring Boot, Spring Security, Spring Data JPA, C#, .NET Core, RESTful APIs, Microservices, JWT Authentication, Maven, JUnit, Mockito

Frontend Development:

Angular (versions 2 through 18), TypeScript, JavaScript, HTML5, CSS3, Angular Material, Tailwind CSS, Bootstrap, Responsive Design, Karma, Jasmine, Cypress

Cloud and DevOps:

Amazon Web Services (AWS EC2, S3, RDS, Lambda, API Gateway, CloudFormation), Docker, Jenkins, GitHub Actions, Continuous Integration, Continuous Deployment (CI/CD)

Databases:

PostgreSQL, MySQL, Oracle Database, PL/SQL, Flyway, Liquibase, SQL Optimization

Mobile Development:

Flutter Framework, Dart Programming, REST API Integration, Cross-Platform Mobile Apps, UI and UX Implementation

Tools and Methodologies:

Git, Bitbucket, IntelliJ IDEA, Visual Studio Code, Jira, Agile Methodology (Scrum/Kanban), Scrum Framework

Software Engineering Principles:

Clean Code, SOLID Principles, Unit Testing, API Documentation (Swagger, OpenAPI), Version Control, System Design

Professional Experience

Senior Systems Engineer – The CE Shop (Denver, USA) | 03/2023 – 11/2025

- Engineered and optimized a high-traffic e-commerce platform using Java/Spring Boot, Angular, and Drupal, achieving low-latency performance for thousands of daily transactions.
- Designed and implemented RESTful APIs powering the company's Learning Management System (LMS), increasing platform uptime.
- Built user management tools in Java/JSF, reducing administrative tasks.
- Performed code reviews and integrated CI/CD pipelines to ensure maintainability and faster deployments.
- Collaborated with AWS and PostgreSQL infrastructure teams to enhance scalability and monitoring.
- Technologies: Java, Spring Boot, Angular, PostgreSQL, AWS, Tailwind, Jira, Git.

Senior Systems Engineer – Indra Sistemas S.A (Santo Domingo, D.R.) | 06/2020 – 03/2023

- Developed and maintained web and mobile apps using Java, Angular, and Flutter, applying SOLID and clean architecture principles.
- Optimized energy distribution systems, cutting processing time by 90% through algorithmic and database tuning.
- Led the migration of Mi EDEEste mobile app from React Native to Flutter, improving UI responsiveness and maintainability.
- Technologies: Java, Spring Boot, Angular 2+, Oracle PL/SQL, Flutter, Docker.

Programmer Analyst & Front-End Developer – Excellent Integrity Solutions (Santo Domingo, D.R.) | 02/2012 – 06/2020

- Built and deployed a mobile payment app for Todo Pago Dominicana, reducing transaction time by 40% and improving user adoption.
- Enhanced telecom data recovery systems post-Hurricane Irma for the Virgin Islands, restoring service continuity.
- Improved PL/SQL query efficiency for ARS Humano by 30% through SQL optimization.
- Designed an inventory system for Key Food stores in New York, streamlining stock tracking across multiple locations.
- Technologies: Java EE, PHP, Angular, Bootstrap, Oracle PL/SQL.

Education

Degree in Computer Science – Universidad Autónoma de Santo Domingo (2007 – 2018)

Certifications & Courses

- SQL Server Database Administration – Unapec (2011)
- Android Mobile Programming – UASD (2018–2019)
- PL/SQL Programming – UASD (2019)
- Angular 10 – Udemy (2020)
- Flutter & Advanced Flutter – Udemy (2020–2021)
